

KNOW YOUR WARRIORS

WHY WE DO IT

Indian public are unaware about the contemporary military history of the Country. Our nation has been under existential warfare since Independence, which continues till this day.

The warrior series intend to drag the reader into reality by bursting the bubble of ignorance. With the bold, in your face approach by informing the reader, that freedom, rights and stability, the country enjoys is being paid for in blood by someone somewhere within the nation wearing a uniform.

These war stories will tell us what our warriors have to endure in providing victory, freedom, honour and dignity to the country in their fight against the enemy both external and internal in varying conditions ranging from deserts and jungles to snow mountains.

The people of India have been shown a part of a picture, showcasing safe, peaceful and a stable democracy. All these are achieved at a cost. Strangely the complete picture was never shown. These war comics are going to make a deep impact.

Throughout history whenever there were turbulent times the spirit of the warriors arose to answer the call of duty for the nation and we can see that well into the 21st century.

These war stories should not be seen as some comic books as they are more than that. They are a Tribute, Military history, War, Geo-politics and Art merged into a real-life story, that will make any reader proud of their armed forces and inculcate the strong message of "country first".
